VOLUME 104

MAY, JUNE, JULY, AUGUST

1949

THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PA.

CONTENTS

No. 1 MAY, 1949

D. LOUISE ODOR AND RICHARD J. BLANDAU. The frequency of occurrence of supernumerary sperm in rat ova. Six figures	1
P. P. LAUDE, R. G. JANES AND J. D. BOYD. A simplified machine for making ground sections of teeth or bone. Two figures	11
W. LANE WILLIAMS. Intravital staining of blood vessels by acid diazo dyes. Four figures	17
J. M. F. LANDSMEER. The anatomy of the dorsal aponeurosis of the human finger and its functional significance. Six figures	31
GEORGE H. PAFF AND FRANK BLOOM. Vacuolation and the release of heparin in mast cells cultivated in vitro. Sixteen figures	45
CHARLES ARTHUR WOERNER. Cytological distribution of fat injected intravenously into guinea pigs. Eight figures	61
K. J. WANG AND M. I. GROSSMAN. Histochemical study of alkaline phosphatase in tissue prepared by the freezing-drying method. Six figures	79
SAMUEL L. LEONARD AND PRESTON L. PERLMAN. Conditions effecting the passage of spermatozoa through the utero-tubal junction of the rat ...	89
J. O. ELY AND M. H. ROSS. Nucleic acids and the Feulgen reaction. Twelve figures	103

No. 2 JUNE, 1949

GERRIT BEVELANDER AND P. L. JOHNSON. Alkaline phosphatase in amelogenesis. Eleven figures	125
JOHN HICKMAN, JESSE E. EDWARDS AND FRANK C. MANN. Venous anomalies in a dog. I. Absence of the portal vein. II. Continuity of lower part of inferior vena cava with the azygos vein. Six figures	137
ROY G. WILLIAMS. Some responses of living blood vessels and connective tissue to testicular grafts in rabbits. Six figures	147
HENRY S. ROBERTS. Changes in mitochondrial form. Twenty-six figures ...	163
CARL AXEL EKMAN AND HJALMAR HOLMGREN. The effect of alimentary factors on liver glycogen rhythm and the distribution of glycogen in the liver lobule. Eight figures	189
WARREN ANDREW AND NANCY V. ANDREW. Lymphocytes in the normal epidermis of the rat and of man. Eleven figures	217
WILLIAM MONTAGNA. Anisotropic lipids in the sebaceous glands of the rabbit. Six figures	243
C. WILLET ASLING, HERMAN BECKS, MIRIAM E. SIMPSON AND HERBERT M. EVANS. The effect of thyroxin injections on growth and epiphyseal closure of the third metacarpal bone in hypophysectomized female rats	255

Book Review:

A. A. AYER. The Anatomy of Semnopithecus Entellus. Reviewed by R. A. Miller	261
---	-----

No. 3 JULY, 1949

H. DUNCAN ROLLASON. Compensatory hypertrophy of the kidney of the young rat with special emphasis on the role of cellular hyperplasia. Eight figures	263
HOMER B. LATIMER. The prenatal growth of the heart and the lungs in the dog. Four figures	287
S. SUNDERLAND AND G. M. BEDBROOK. Narrowing of the second part of the subclavian artery. One figure	299
WILLIAM J. FURUTA. Demonstration of fibers in the decalcified bone matrix by enzymatic digestion. Four figures	309
REIDAR F. SOGNAES, JAMES H. SHAW, ARTHUR K. SOLOMON AND EGIL HARVOLD. A method for radioautography of specimens composed by both hard and soft structures. Seventeen figures	319
RICHARD J. BLANDAU. Embryo-endometrial interrelationship in the rat and guinea pig. Twenty-one figures	331
HOWARD A. BERN. The distribution of alkaline phosphatase in the genital tract of male mammals. Fourteen figures	361

No. 4 AUGUST, 1949

WILLIAM M. SHANKLIN. On the presence of cysts in the human pituitary. Seventeen figures	379
J. M. ROSE, C. M. POMERAT AND B. DANES. Tissue culture studies of ciliated nasal mucosa in man. Preliminary report. Twelve figures	409
A. ELIZABETH ADAMS AND ALICE LOUISE BULL. The effects of antithyroid drugs on chick embryos. Fourteen figures	421
ROBERT O. SCOW, MIRIAM E. SIMPSON, C. WILLET ASLING, CHOH HAO LI AND HERBERT M. EVANS. Response by the rat thyro-parathyroidectomized at birth to growth hormone and to thyroxin given separately or in combination. I. General growth and organ changes. Eight figures	445
ALEXEI A. KONEFF, ROBERT O. SCOW, MIRIAM E. SIMPSON, CHOH HAO LI AND HERBERT M. EVANS. Response by the rat thyro-parathyroidectomized at birth to growth hormone and to thyroxin given separately or in combination. II. Histological changes in the pituitary. Five figures	465
MARIETTA VOGUE AND HOWARD A. BERN. Cecal villi in the red tree mouse, <i>Phenacomys longicaudus</i> . Seven figures	477
S. R. LEWIS, C. M. POMERAT AND D. EZELL. Human epidermal cells observed in tissue culture with phase-contrast microscopy. Nineteen figures	487
<i>Book Review:</i>	
G. W. H. SCHEPERS. Evolution of the forebrain. Reviewed by F. N. Low	505
